

## **AI Software Engineer (x/f/m) | NT Parameter Lab**

You will develop web-based applications that facilitate the application of our AI safety and trustworthiness tools. Your responsibilities will include designing, coding, and modifying applications to deliver an intuitive and user-friendly experience. You'll work on both public-facing demos and integral parts of our products, using your understanding of UI, cross-browser compatibility, and web standards.

## **Benefits**

Competitive salary. German social security for on-site employees.

## **Qualifications**

- Proficiency in web development languages, frameworks, and cloud platforms.
- Experience in full-stack development, from the database to the UI.
- Experience in the application of large language models (LLMs) for problem solving.
- Ability to collaborate effectively within a team and communicate with non-technical stakeholders.

## **How to apply?**

Send your CV to [job@nekar-hub.com](mailto:job@nekar-hub.com)
